

Ashburton Contracting Ltd

100kW Solar Array

ACL had a desire to offset energy costs in an ever-increasing TOU market, as well as assisting in achieving sustainability goals. Platinum Energy was selected as their preferred partner to deliver this project, and the process was streamlined and efficient from end-to-end. A great result both financially and environmentally.

Project Highlights:

50% annual energy from solar

**~5 Year payback
>20% ROI**

Over 70% self-consumption
